The Apache attack helicopter is one of the world's most awesome weapons systems. Deployed for the first time in Afghanistan, it has already passed into legend. The only thing more incredible than the Apache itself are the pilots who fly her. For the first time, Apache Dawn tells their story—and their baptism of fire in the unforgiving battle of Helmand province. Their call sign was "Ugly"—and there was no better word for the grueling hundred-day deployment they endured. Day after day, four of England's Army Air Corps' finest pilots flew right into the heart of battle, testing their aircraft to the very limit. Apache Dawn takes the reader with them on a series of unrelenting and brutally intense combat missions, from daring, edge-of-the-seat rescues to dramatic close-air support in the white heat of battle. Bestselling author Damien Lewis has been given unprecedented access to these heroic aircrews and to the men on the ground whose lives they saved. It is an astounding story of bravery, skill, and resilience in the face of unbelievable odds. And it is the story of the Apache itself—the ultimate fighting machine.

John McPhee's twenty-sixth book is a braid of personal history, natural history, and American history, in descending order of volume. Each spring, American shad-*Alosa sapidissima*-leave the ocean in hundreds of thousands and run heroic distances upriver to spawn. McPhee--a shad fisherman himself--recounts the shad's cameo role in the lives of George Washington and Henry David Thoreau. He fishes with and visits the laboratories of famous ichthyologists; he takes instruction in the making of shad darts from a master of the art; and he cooks shad in a variety of ways, delectably explained at the end of the book. Mostly, though, he goes fishing for shad in various North American rivers, and he "fishes the same way he writes books, avidly and intensely. He wants to know everything about the fish he's after--its history, its habits, its place in the cosmos" (Bill Pride, *The Denver Post*). His adventures in pursuit of shad occasion the kind of writing--expert and ardent--at which he has no equal.

The sensational true story of Eddie Rickenbacker, America's greatest flying ace At the turn of the twentieth century two new technologies—the car and airplane—took the nation's imagination by storm as they burst, like comets, into American life. The brave souls that leaped into these dangerous

contraptions and pushed them to unexplored extremes became new American heroes: the race car driver and the flying ace. No individual did more to create and intensify these raw new roles than the tall, gangly Eddie Rickenbacker, who defied death over and over with such courage and pluck that a generation of Americans came to know his face better than the president's. The son of poor, German-speaking Swiss immigrants in Columbus, Ohio, Rickenbacker overcame the specter of his father's violent death, a debilitating handicap, and, later, accusations of being a German spy, to become the American military ace of aces in World War I and a Medal of Honor recipient. He and his high-spirited, all-too-short-lived pilot comrades, created a new kind of aviation warfare, as they pushed their machines to the edge of destruction—and often over it—without parachutes, radios, or radar. *Enduring Courage* is the electrifying story of the beginning of America's love affair with speed—and how one man above all the rest showed a nation the way forward. No simple daredevil, he was an innovator on the racetrack, a skilled aerial dualist and squadron commander, and founder of Eastern Air Lines. Decades after his heroics against the Red Baron's Flying Circus, he again showed a war-weary nation what it took to survive against nearly insurmountable odds when he and seven others endured a harrowing three-week ordeal adrift without food or water in the Pacific during World War II. For the first time, *Enduring Courage* peels back the layers of hero to reveal the man himself. With impeccable research and a gripping narrative, John F. Ross tells the unforgettable story of a man who pushed the limits of speed, endurance and courage and emerged as an American legend.
