Hunter Allen and Andy Coggan, PhD have completely revised the book that made power meters understandable for amateur and professional cyclists and triathletes. Power meters have become essential tools for competitive cyclists and triathletes. No training tool can unlock as much speed and endurance as a power meter--for those who understand how to interpret their data. A power meter displays and records exactly how much energy a cyclist expends, which lends unprecedented insight into that rider's abilities and fitness. With the proper baseline data, a cyclist can use a power meter to determine race strategy, pacing, and tactics. Training and Racing with a Power Meter makes it possible to exploit the incredible usefulness of the power meter by explaining how to profile strengths and weaknesses,

see just how fast he can go. Matt Fitzgerald has been running (and writing about running) for most of his adult life. But, like many passionate amateur runners, he never felt he was quite fulfilling his potential. If he follows the training, nutrition, and lifestyle of an elite runner, just how fast could he go? In his mid-forties, Matt at last has the freedom to do nothing but train, if only for the span of one summer. The time is now. He convinces the coach of Northern Arizona Elite, one of the country's premier professional running teams, to let him train with a roster of national champions and Olympic hopefuls in the running mecca of Flagstaff, Arizona, leading in to the Chicago Marathon. The results completely redefined Matt ' s notion of what is possible, not only for himself but for any runner. Filled with a vibrant cast

of characters, rigorous and quad-torching training, and a large dose of self-deprecating humor, Matt ' s gripping account of his “ fake pro runner ” experience allows us to partake in the dream of having the chance to go all the way. Yet for the gifted young runners Matt trains with, it ' s not a dream but concrete reality, and their individual stories enrich this inspiring narrative. Running the Dream pulls us into the rarified world of professional running in a way we can all relate to, regardless of speed, and to take away pieces of one man ' s amazing journey to try to achieve our own potential.

Mette Ivie Harrison learned life lessons about accepting herself, moving forward, pushing to become better, and bringing her family along the way—sometimes kicking and screaming. In this riveting and inspiring first-person story of going from couch potato to nationally ranked triathlete, Mette shares her experience training and racing with her family. She explores how to manage a busy family, how to ignore the things that don't matter, and how to focus on goals that create a stronger you and a stronger family. She shares how racing can be a vacation, how racing with your children strengthens your family bond and how, when you think you've hit your wall, whether in parenthood or during hour twelve in a triathlon, how you can push through and succeed.
